YOUR PERSONAL LOCKER

2018 New

KOKUYO

Comfortable storage capacity to fit the diversifying work style.

Personal locker "iNON" responding to diversifying work style.
With security management for individuals and storage of work tools comfortably for the ease of use.
iNON is designed to improve the work quality and office space.

Improve convenience by internal tray

All locker comes with an inner tray for better manage of your personal items and work documents.
The locker is designed in the way that all A4 document can be place vertically and horizontally at the same time.
In addition, it comes with compartment to let the user store their items in a tidy manner, thus keeping the internal of the locker tidy at all time.
1 For stock documents and magazines, back labels are easy to see. It also prevents the items from falling sideways when taking out.

2 Frequently used documents, etc for A4, iNON comes with a compartment for easy retrieval with the depth that fits neatly.
3 A space under the tray enable the user to store and keep their devices such as notebook PCs and tablets.

The under tray width can be adjusted accordingly to fit your devices width and space.

In tray load capacity (Equal distribution) 10 kg (about 98 N)

Inner tray inner dimension W238 × D372 × H50

376

Sales Team
Spending most of the time outside of the office.

Administratives Team
Require more storage area for adminstratives items.

Planning / Marketing Team
Quality items are required to store safely in the lockers for easy accessibilities.

Development / Technology Team
Highly important documents and information should be store in a more secure manner.

Radar chart axes (repeated for each team):
- Office Work (Stay in the office)
- Stocking of documents
- Special Tool
- Taking out stored items
- Meeting

Behind the door tray make storage easier
We realise by designing a tray behind the door, it helps the user to keep all small items.
By placing various small items in front, it prevents scattering and mess-up inside the cabinet thus improves the ease of use inside the cabinet.
Mail Pocket

A4 Documents can be easily slot into the mail pocket. It neatly store all your small items in a more effective way and prevent from falling out of the tray.

With the tray partition in half clear finished, your documents can be easily be seen. A pocket hole is designed so that user can use their fingers to adjust the documents.

You can also remove the tray partition. By doing so, you could place more small items.

Internal area is designed based on precision and accuracy.

Open Spaces

Bottom Section

Pockets of opening spaces enable the user to store some large items example boxes.

Middle Section

Pockets of opening spaces at the middle section of the cabinet enable the user to place items that can be easily retrieve on the go.

Internal wiring function

Wire management allows the wire to run from the ground level to within the cabinet. This way, you could even charge your electronic equipments within the cabinet.

Security function that can select from 4 types of lock

Key Cylinder

The easier and conventional way of securing the items. Optional master key is available upon request.

Dial Lock

Secure without using a key. Lock comes in 4 digital passwords that safely sceure the items.

Push Cylinder Auto Lock
