

Any Sofa

Voluminous presence creates a casual atmosphere.
Unit sofa with castors on front side for effortless mobility.

WELLUP

GOOD DESIGN AWARD 2023

BEST 100

Awarded for "Any way" in 2023

FUNCTION

Slanted frame design

The back frame of the sofa is slanted, making the handles easy to grasp even when the sofa is placed against a wall.

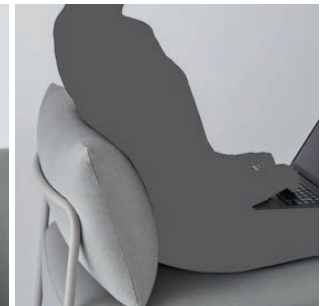

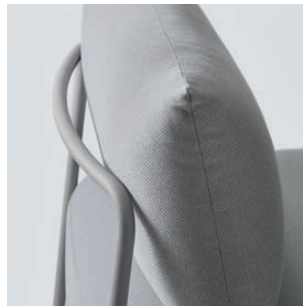

Back cushion

The back cushions are attached to the seat with zippers, thus keeping it in place while moving.

Square design with castors

Square design for easy layout. Small-diameter castors in matching color as the main body are on the front side for smooth movement.

Soft design

Soft design seat and cushion provides both postural support and seating comfort for work.

Frame design for enhanced mobility

A plump and comfortable seat with a seat height and depth suitable to support the working posture. The back handle integrated with the cushion also serves as a backrest flexor while gently supporting the back.

OTHERS

Castors

- Polyurethane castors suitable also for hard floors, such as wood flooring.
- Rubber castors are not available on this product.

* Do not use on cushion flooring as it may damage the floor.

<Caution>

When lifting the handle during movement, the castors on the without backrest model is more prone to catching on the floor compared to the model with backrest. Be sure to lift the back legs just slightly off the floor using the handles.

Back and seat : Polyurethane foam, Polyester cotton
Frame : Steel pipe (Powder coated)
