Options

Power unit (2 outlets)

Point 1
Adjustable back cushion allows switching between relaxation and work mode

The backrest can be tilted to support both active and relaxed work. Adjust the back cushion to one's preference with an intuitive operation that has no noise when adjusting.

Point 2
Individually or as a team to bring out fresh new ideas

The backrest can be tilted to support both active and relaxed work. Adjust the back cushion to one's preference with an intuitive operation that has no noise when adjusting.

Point 3
Support items to support posture and enhance comfort

A spinning top-shaped ottoman that supports the legs, and a support cushion that can be placed in any position to suit one's desired preference.

Point 4
Differentiating height makes it a "casual gathering place" as well.

High benches to create a place not only for resting, but also for active interaction and a place to casually drop in for a chat.
