

CORNE

Wooden stool that implements new comfort and design with innovative technology.

Details

1
Surprise thinness that overturns the concept of stool
 The molded plywood sandwiching the carbon sheet implements a thickness of 5mm, which is difficult with ordinary molded plywood. Comfort of elastic and supple sitting.

2
Stable legs
 Despite its casual design, it is designed for user safety.

Material Selections

WKC
Crystal

A pattern that expresses a rhythmic world. Light and gentle coloring according to the spatial image.

WLC
Retro Pop

Retro coloring reminiscent of 60s fashion with colorful stone motifs.

WJC
Botanical

Incorporating botanical images into designs, expressing the cuteness of Scandinavian textiles.

WH1
Natural (Oak Clear)

Use natural wood oak veneer with a light color (no print).
