

FABRE

Good for Working, Good for Living.

“FABRE” inspired by a home design for work life and social life.
Designed to naturally blend into everyday life.

(Fabre fabric model)

PRODUCT
CERTIFIED FOR
LOW CHEMICAL
EMISSIONS:
UL.COM/IGG
UL 2818

FUNCTION

Posture supporting functions inspired by interior led design.

Seat height adjustment

Seat height is adjustable according to the desk height, user's size, shape and working posture.

<Height range: 90mm>

Auto-adjust reclining

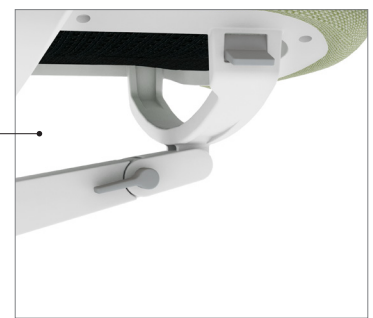

The reclining tension automatically adjusts to the user's weight.

Seat structure (Mesh + Urethane)

Firm under-layer mesh combined with padded cushion to relieve excessive pressure and support seating posture.

※Fabric and leather upholstered models

Recline tension strength adjustment

Switch the lever to adjust the reclining tension strength (standard or firm). Also, lockable in the upright position.

<Standard tension / Firm tension / Fixed (Initial setting)>

SUSTAINABLE Use of Environmentally Friendly Materials

We have realized an environmentally friendly product design by adopting recycled upholstery (Kamikara) made from scrap materials generated during the manufacturing process of Kokuyo notebooks, and recycled plastic (Loopla) made from used clear holders.

Upholstery: Recycled Upholstery (FB Upholstery)(Kamikara - Custom order)

PET Bottle / Notebook ▶ Upholstery

Circle arm / Seat frame: Recycled plastic (REAMIDE)

Fishing net ▶ Circle arm / Seat frame

Back core: Recycled plastic (Loopla) 

Clear holders ▶ Leg cover

Nylon castors: Recycled plastic

Fishing net ▶ Castors
