UL 2818

FUNCTION

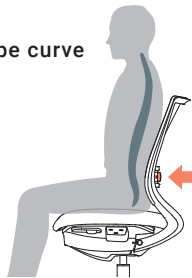

Dual support features to maintain spinal S-shape posture.

Posture support seat prevents the pelvis from sliding forwards, and the lumbar support holds the backbone in place to maintain corrective spinal S-shape posture.

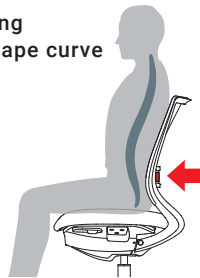

Lumbar support

Fair S-shape curve

Strong S-shape curve

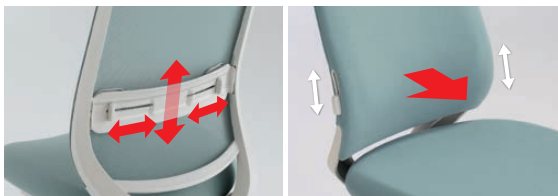

Functional lumbar support adjustable to suit personal preference and body physique. The mesh backrest model is equipped with a two-way adjustable lumbar support with independent sideways controls to set lumbar tension to individual preference. The fabric backrest encompasses a selectable two-stage lumbar position setting built-in to the backrest.

Posture support seat

The seat adopts an indented and pliable seat shell to firmly hold the pelvis in place. The seat cushion is placed on top to provide a stabilized and supported seating experience.

The posture support seat prevents the pelvis from sliding to maintain seating posture, and distributes body weight adequate for long hour use.

Mesh backrest

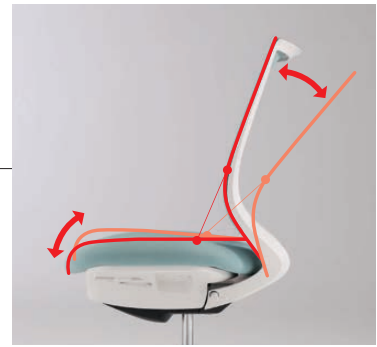

Fabric backrest

FUNCTION

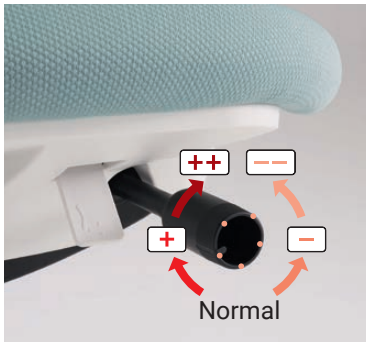

Adjustable arms

Adjust the arm position to personal preference according to desk height and the work at hand.
 Horizontal direction stroke: 80mm
 Height adjustment stroke: 100mm
 Angle: 25° inwards

Auto-fit synchro tilt

Synchro backrest with smooth unhindered tilt.
 Stabilizing counterforce to maintain balance, and weight operated tilt tension control.

Reclining Adjustment Control

In addition to the weight operated tilt tension, a manual operated 5-level tension setting is equipped for taller physique and to be adjustable to one's personal preference.

Back Angle Adjustment

The tilting angle is selectable from 4 settings.
 [Upright fixed position(0°), 6°, 13°, 20°]

CleanTect coating

Stain-preventive coating on white coated 5-star bases will prevent dirt and shoe marks, as well as being easy to clean.

Seat Height/Depth Adjustment

Adjust the seat height and depth to personal preference according to desk height and the work at hand.
 Seat height stroke: 90mm
 Seat depth stroke: 50mm

FUNCTION

Add-on Posture Support Options.

Add-on options to further enhance seating comfort.
Customize to suit personal preference and task at hand.

DEOFACTOR® Antivirus

The active ingredient in Deo Factor reacts with moisture in the air to inhibit virus proliferation. This treatment technology reduces certain viruses on fabric surfaces by 99.9% within 2 hours. (Test method: ISO18184)

*Antiviral performance applies only to the upholstery of the seat and backrest. While this product's upholstery reduces the amount of certain viruses adhered to its surface, it does not guarantee infection prevention. Additionally, antiviral treatment is not intended to treat or prevent illness. Please note that, depending on usage conditions, wear and abrasion of the upholstery may progress quickly due to the nature of the fabric. DEOFACTOR is a registered trademark of Takahashi Dyeing Co., Ltd.
