Leafline

At the core of its function, Leafline is a table that fills in more role than you think. From multi-purpose room to meeting room and even seminar or training room. With its define design lever and smooth operation when to flip over the table top, every aspect of the design prospect is to create a safe to use and function product.

Details

1

Lever is designed in the way that when the table top is flip down, there is no way that the hand will be caught in-between.

2

The stacking gap in-between the table is so minimum that it could stack up to more tables that you could imagine. Thus save space.
